USR Assist

The AI helper inside every USR app

✔ **Step-by-step help**

USR Connect

One connector for Tally, Google, Microsoft and the tools you already use

✔ **Step-by-step help**

> Step-by-step help for every app, by role, is in the USR Help Centre. Your OKR Stars expert walks you through it at training.

— HOW THE DATA CONNECTS

One sign-in, one record, no re-typing

Your team signs in once to USR One. Every Operations app, and every app in the other suites, uses the same people, customer, vendor and item records.

From	To	What moves, automatically
USR Projects	USR Meetings & Actions	Meeting decisions become tasks on the project
USR Inventory & Purchase	USR Books (Finance)	Purchases and stock value reach the ledger
USR Maintenance	USR Inventory & Purchase	Spare parts used are taken out of stock
USR Forms & e-Sign	Every app	Approvals and signatures stored against the right record

Same sign-in, same record: each step happens without exports or re-typing.

DEPARTMENT AUTOMATION

What runs on its own

WHEN	**Stock below reorder level**	→ Purchase request raised for approval
WHEN	**Machine service due**	→ Preventive maintenance job created
WHEN	**Visitor arrives**	→ Host notified, badge printed, entry logged
WHEN	**Meeting ends**	→ Action items sent to owners with due dates
WHEN	**Quality check fails**	→ Batch held and an action raised

WHERE AI HELPS

AI drafts. Your people decide.

✨ Ask USR Assist

Answers 'how do I...' questions inside every app

✨ Dashboards in plain language

Insights builds a chart from a question

✨ Meeting notes to tasks

Summaries and action items written for you

✨ Forecasts

Stock and project delays predicted from history

USR Assist works inside the apps your users already have. See how OKR Stars uses AI in every service.
